

# NATSTEEL HOLDINGS PTE LTD

---

## ONE ORDERING SYSTEM

<https://ump.natsteel.com.sg/>

NatSteel Integrated Customer Experience (NiCE) provide digital ordering system that streamline the ordering process. It has a user friendly interactive interface that improve on customers ordering experience.

## WHAT IS IN ORDERING SYSTEM?

- **Create New Orders:**
  - Digital ordering through online platform for all products.
- **Draft Orders:**
  - Orders can be saved as draft in the system for later submission or amendment.
- **Active Orders:**
  - It shows a list of orders with status such as submitted, pending approval etc for customer to better track their orders.
- **Delivered Orders:**
  - Reflect up to date delivered orders based on Block, Storey, Part (WBS) for customers ease of referencing.
- **Deleted Orders:**
  - Deleted Orders will be saved in the system for 7 days before removing it permanently.
- **Upcoming Orders:**
  - Orders with typical floor based on forecast record and convert it into the real order.

# Create New Orders (Project-CAB)

Standard length bar, Sample /Standard Meshes, BPC, Coupler Head and Coil Products are grouped under “Non- Project”

Products such as **Cut and Bend (CAB)**, **Mesh (MSH)** etc. are grouped under “Project”.

Users must enter **WBS details (WBS1 - Block, WBS2 - Storey, WBS3 - Part)** before place the order. If not, error message will be prompted.

Invalid WBS2 selected. Please select a WBS2 so that you can continue to extend Part under the selected WBS2. <br> 请选择一个楼层, 以便在此楼层之下来扩展分部.

Users need to select structural element (Beam, Column, Slab etc.)
